

EBSCO *Usage Consolidation* allows you to collect, consolidate, and report on the usage of your library's online resources.

With EBSCO *Usage Consolidation*, you can ...

EFFECTIVELY MANAGE USAGE

Gather, store, and consolidate usage data related to your online collection – and track usage for all of your e-resources, **regardless of vendor**.

VIEW DATA WITHIN YOUR WORKFLOW

Access usage data via the EBSCO*admin* Holdings Management interface.

SUPPORT A WIDE RANGE OF DATA

Load usage data from virtually any content provider offering usage reports that are compliant with or similar to COUNTER (automated through SUSHI, where applicable).

CREATE DETAILED REPORTS

Report on usage of titles (summarize by title, publisher, or platform) and databases; plus, usage data can be exported to other systems for additional analysis.

LET EBSCO LOAD USAGE ON YOUR BEHALF

Turn this task over to the highly skilled EBSCO *Usage Loading Service* so you can spend less time collecting usage data. Receive five platform loads with your *Usage Consolidation* subscription.

GAIN EVEN GREATER INSIGHT TO ANALYTICS WITH EBSCO *USAGE CONSOLIDATION*

While *EBSCONET Analytics* provides an additional level of clarity for purchasing and renewing the e-journals and e-packages you order through EBSCO, subscribers to EBSCO *Usage Consolidation* gain access to an even more informative dashboard that includes the critical cost-per-use metric and performance comparison of various e-packages.
