

EBSCONET® Analytics

Simplify your e-collection decisions

Streamline Your Workflow

If you order your e-journals and e-packages through EBSCO, you now have instant access to the data you need to quickly evaluate your collection. The newest addition to EBSCONET® Subscription Management, EBSCONET® Analytics is the *only* analysis tool that puts key decision-making data directly into the application where you manage your subscriptions.

Totals

Number of Titles:	44	↑
Subscribed Titles:	44	↑
Access Only Titles:	0	→
Total Cost:	150,205.29	↑ USD

Perform on-the-spot cost analyses of journal subscriptions and packages

View results in easy-to-read dashboards

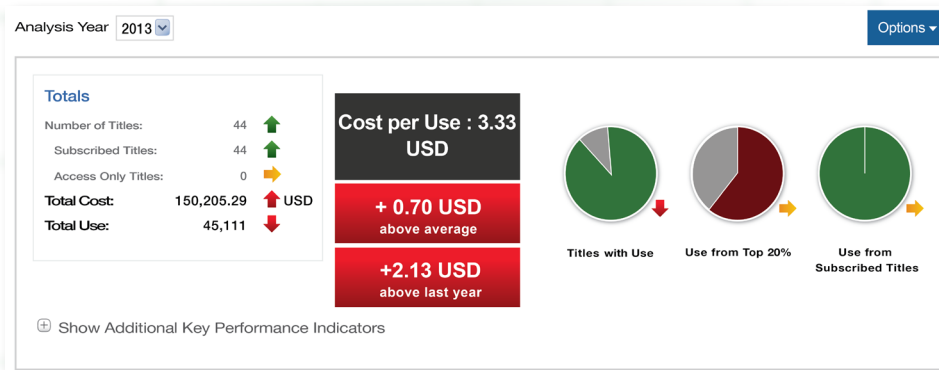

Generate detailed reports to share

Customize views based on your specific priorities and preferences

Optimize Your Collection

We know how important it is for you to understand usage so you can make informed decisions. When you subscribe to EBSCONET® Usage Consolidation, you have access to an even more informative dashboard of data, including the critical cost-per-use metric. What's more, EBSCO can load that usage data for you—obtaining reports, loading to your Usage Consolidation account, and matching exceptions to ensure that usage is matched to titles in the knowledge base.

View cost-per-use data for the current year and prior years

Compare against the average for all your titles/packages

Identify your most- and least-used resources
