

Website Terms of Use

Last modified: Monday, April 27, 2020

Acceptance of the Terms of Use

Welcome to the DynaMed and Micromedex with Watson website delivered through the domain dynamedex.com (the "Website"). The Website is hosted by EBSCO Publishing, Inc. ("EBSCO Information Services") and was developed in collaboration with International Business Machines Corp. ("IBM Watson Health") and its product IBM Micromedex. By using or accessing the Website, you agree to be bound and abide by the following Website Terms of Use (these "Terms of Use"). If you do not want to agree to these Terms of Use, you must not access or use the Website.

Collectively, EBSCO Information Services and IBM Watson Health are referred to in these Terms of Use as "we" or "us" or "our."

The Website does not include those sites which host other products, services, software, and mobile applications from EBSCO Information Services or IBM Watson Health, which are governed by their own terms of use.

Additional terms that apply to a customer's and its authorized users' access and use of this Website are contained in the contract executed between the customer and EBSCO Information Services or IBM Watson Health, whichever party sells DynaMed and Micromedex with Watson.

Changes to the Terms of Use

We may revise and update these Terms of Use from time to time in our sole discretion. All changes are effective immediately when we post them and apply to all access to and use of the Website thereafter. Your continued use of the Website following the posting of revised Terms of Use means that you accept and agree to the changes. You are expected to check this page so you are aware of any changes, as they are binding on you.

Reliance on Information Posted

This Website includes content provided by third parties, including materials provided by third-party licensors, syndicators, aggregators and/or reporting services. All statements and/or opinions expressed in these materials, and all articles and responses to questions and other content, other than the content provided by EBSCO Information Services and IBM Watson Health, are solely the opinions and the responsibility of the person or entity providing those materials. These materials do not necessarily reflect the opinion of EBSCO Information Services and IBM Watson Health. We are not responsible, or liable to you or any third party, for the content or accuracy of any materials provided by any third parties.

The information presented on or through the Website is intended for persons with adequate medical education and skills, specifically, (1) physicians and other competent healthcare professionals who will rely on their own discretion and judgment in medical diagnosis, clinical decisions and treatment, and (2) researchers who will not use the information for medical diagnosis. The information presented on the Website has been reviewed by licensed medical professionals with the purpose of providing you diagnostic tools and treatment options in conformance with the standards of professional practice at the time of publication. However, the Website is not intended for and should not be used as a substitute for the advice of a physician or other health care professional and any patient management decisions should be made by competent health care professionals using their own judgment, experience and, when necessary, definitive sources of information, as well as their individual assessment of each patient and his or her unique circumstances. Furthermore, you are

advised to review all product information sheets included in the package of each drug you plan to prescribe or administer as drug-related information on the Website may be incomplete and/or outdated.
